

Bromley Park Housing Renovation

Jamaica Plain, MA

Mr. Bradley co-designer on the master plan for Bromley Heath including demolition of a high rise building and new pedestrian and vehicular circulation patterns which reduced density at this high rise Boston Housing Authority project. He served as project architect for the demolition of one building and the rehabilitation of another which included reconfiguration of 12 existing buildings and the redesign of their exteriors to introduce more residential character to the building.

Address: 30-40 Bickford Street, Jamaica Plain, MA

Client: Boston Housing Authority

Project Completion Date: 1998

Project Architect: Charles Bradley, III, AIA (as an employee of Finegold Alexander)
