

Morning Star Baptist Church

Mattapan, Massachusetts

This project involved the new construction of a 33,000 s.f. church with a construction cost of \$7.6 Million.

The new church includes a sanctuary that seats 950 persons. In addition it houses administrative offices, classrooms, conference spaces, and a large fellowship hall. The sturdy palette of masonry, glass and metal panels are testimony to the long term commitment the Morning Star Congregation is making to this very special site on Blue Hill Avenue.

Design Completion Date: 2004

Project Budget: \$7.6 Million

Project Architect: Charles Bradley, III, AIA (as an employee of Stull and Lee Inc.)
