

Jide Olanrewaju

Intern

Education

Hampshire College
Amherst, Massachusetts
B.A. Architecture, Urban Design, and Visual Arts. 2011

Institute for Architecture and Urban Studies
New York City, New York
Independent Research. 2010

Harvard University
Cambridge Massachusetts
Crimson Scholar. 2008

Cambridge Rindge & Latin
Cambridge Massachusetts
H.S. Diploma. 2007

Technical Competencies

Adobe Creative Suite, Auto CAD, Revit, Rhino, V-ray, Sketch-Up, GIS, Maya, 3D Studio Max, Machine Shop Fabrication

Languages

English, Mandarin Chinese, Yoruba

Travel & Research

United Kingdom, 2009: I studied the collection of African arts at the British Museum, specifically that of the Benin Empire and the Yoruba tribe of Western Nigeria to find correlation between time of acquisition and colonial occupation.

China, 2010: I studied Mandarin at Anhui Agricultural University as a keen interest in better understanding Chinese society, social constructs and language, As an added benefit, I visited several cities for a first-hand understanding of China's transitioning from the rural to the urban, growth and challenges of urban design and architecture. I also lived in Shanghai visiting the World Exposition and other sites.

Nigeria, 2011: I visited Lagos researching the problems of urban growth, current urban conditions and strategies of redevelopment. I interviewed state government officials, local architects, and residents.

Profile

A graduate of Hampshire College with a self-designed interdisciplinary concentration in Architecture, Urban Design and Visual Arts. Utilized his unique college experience to undertake and successfully execute several independent and collaborative design projects.

Professional Experience

The Arch Professional Group, Inc., Milton, MA
Architectural Intern
2009, April 2012 - Present

Design Experience

Salvation Army Exterior & Interior Renovation- Phase 1, Framingham MA

2012. Ongoing

Masonry elevations renovation & Upgrade of store front window system to a curtain wall system

- Documented existing conditions
- Participated in design sessions
- Coordinated with canopy consultants, structural engineer & moisture and water control consultant
- Generated all computer aided drawings; floor plans, elevation, sections & 3d Modeling

Davis Funeral Home, Dorchester MA

New Design. 2009

- Participated in designing of new Funeral Home building
- Generated all computer aided drawings

Bradley Home Family Room, Milton MA

Renovation and Addition 2009, 2012

- Participated in designing Single-Family Home Addition. Generated computer aided drawings utilizing Autocad, Autodesk Revit

Racing Stroller, Amherst, MA

Product Design. 2008-2009

- Created a yearlong project with students and faculty designing a racing stroller for the disabled sister of a Hampshire College Alumna
- Designed emergency brake system, suspension system, wheel configuration, and skin sensitive seating upholstery
- Fabricated mechanical prototypes from steel, wood, and plastic

Contextualizing Urban Conditions, Lagos, Nigeria

Research 2010-2011

- Researched and analyzed urban growth problems of a major developing world megalopolis – Lagos, Nigeria and other major cities in countries around the world from a transportation perspective
- Also proposed and documented design solutions, for transportation, markets, health, leisure
